Valentine's Day in Korea

All over the world, Valentine's Day is a celebration of love among couples. Valentine's Day in Korea (14th February) is no exception. However, there are some key differences in how Koreans celebrate compared to the rest of the world. On Valentine's Day, women are giving out gifts or chocolates to their valentine. Women are also the ones who get to confess their love for men.

However, on White Day (14th March), it's the other way around. The following month after Valentine's day, White day is the opportunity for men to respond or reciprocate the love they received from women on February 14. Single men can also see this day as an opportunity to confess their love for women.

A Guide to Korean Winter Street Food

Bungeo Bbang (붕어빵)
Red Bean Filled Pastry

Bungeo-ppang is a fish-shaped pastry stuffed with sweetened red bean paste. The snack is often sold at street stalls, grilled on an appliance similar to a waffle iron but with a fish-shaped mold. Red bean paste is the standard filling but many bungeo-ppang sold as street food are filled with pastry cream (called "choux-cream").

Gungoguma (군고구마)
Roasted Sweet Potatoes

The most convenient and popular way that Koreans consume sweet potatoes is just roasted or steamed. During the fall and winter, when sweet potatoes are in season, specialized sweet potato barrel roasters are common on street corners. The potatoes are wrapped in newsprint and eaten on the go.

Hotteok (호떡)
Filled Cinnamon Sugar Pancake

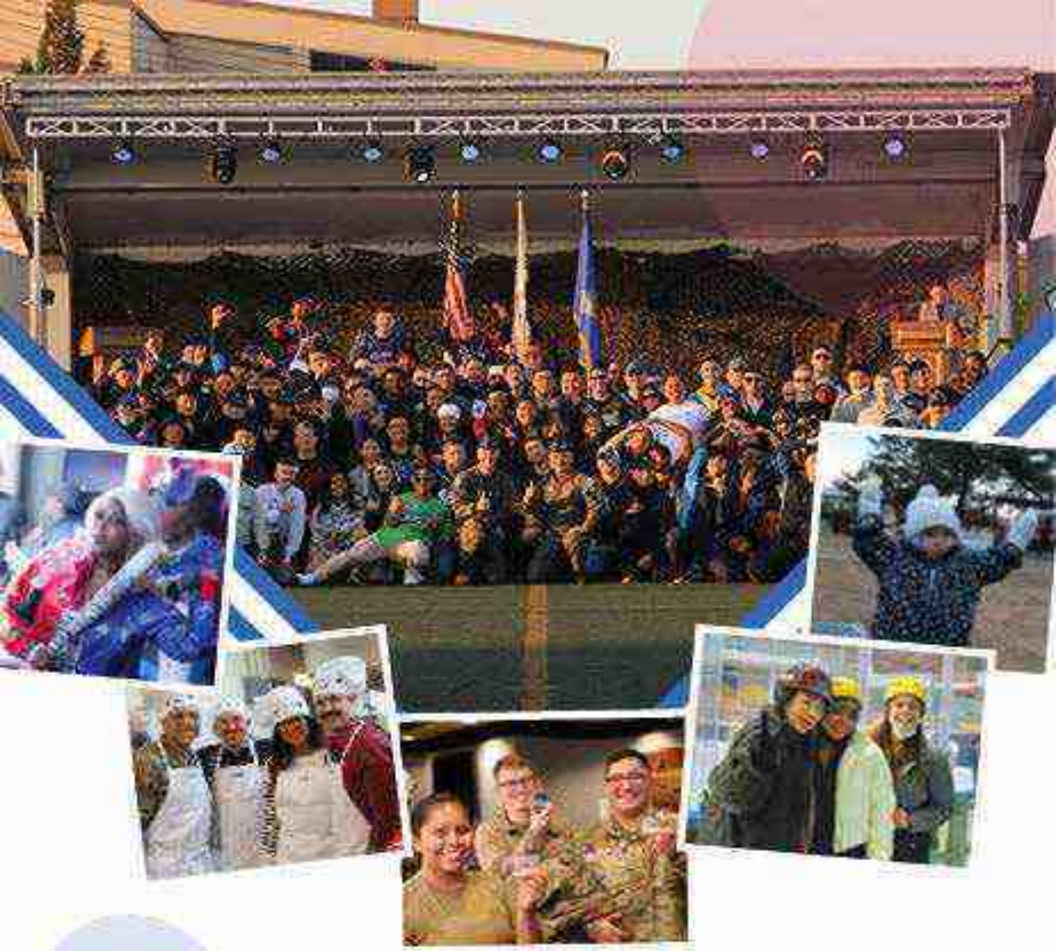

Hotteok is a flour dough pancake filled with sugar syrup inside. It's one of the most popular street snacks in Korea.

Hoppang (호빵)
Steamed Bun

Hoppang is a hot snack sold throughout Korea. It is a pre-cooked ball of rice flour filled with something such as red bean paste. The hoppang is steamed to keep it warm and sold at convenience store, and many small independent grocery stores throughout the winter months.

FSS SPOTLIGHT

February 2023

A1C Isabela Santana

Customer Service Technician
Military Personnel Flight

What is your favorite part about working at the MPF?

I am currently working in the Customer Support Section of the MPF, and I would say the best part about my job is the people I work alongside. My work center is like a big family; when a person needs help, we are all there to assist in any way we can. Another reason is the ability to network with other AFSCS and agencies across the base.

What do you wish the Kunsan community knew about your programs?

My time spent in Kunsan has taught me many things. I learned very quickly how every single AFSC plays an important role towards accomplishing the mission. Even though it feels like the MPF is "behind the scenes" our efforts directly impact every person across the base. Additionally, we are one of the first faces you see upon arrival to Kunsan, and likely the last face you will see before departing Kunsan.

What is your best memory at the MPF?

My squadron does a great job offering members the opportunities to participate in different events offered across the base. During the "12 Days of Christmas" the MPF was able to enjoy events such as the Unite Holiday Fair with cooking classes and Axe throwing. Also, I enjoyed our holiday party where I won a scooter in one of the raffles. Participating in all of these events helps me keep my mind busy, since it was hard for me to leave my family in the United States at 18 years old.

Squatonomics

LEARN HOW TO SQUAT SAFELY AND EFFECTIVELY

THU, 16 FEB, 1000

The squat is an absolutely essential movement for physical health. We all do it every single day, we might as well do it right. Poor mechanics over time lead to orthopedic injury, joint degeneration, and poor overall health. Join this class to learn and apply the fundamentals of the squat movement so you can build resilience, prevent injury, and enhance performance. Bring your lifting gear and be ready to get under the bar!

Free Resistance Training Consultation

Whether you are new to resistance training and need complete guidance or you are an experienced lifter and seek new tips or tricks, meet individually with a Certified Strength and Conditioning Specialist (CSCS) to learn where you can improve your current program. Topics include fitness principles, fitness goals (strength, size, flexibility, etc.), types and uses of resistance training equipment, injury prevention, and sports performance (for Air Force PT tests or personal activities). Ask anything and take yourself to the next level! To schedule your free consultation, please contact Capt Christopher Drager @ christopher.j.drager.mil@health.mil. Consultations are limited to 2 individuals per day.
